7. Statement by the director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements

Dear Shareholders and Stakeholders,

I am honoured to present our company’s Business Responsibility and Sustainability Report for the year. In this report, we outline our environmental, social, and governance (ESG) commitments, challenges, targets, and achievements.

ESG has always been at the core of our company’s values and operations. As a chemical company, we recognize that our industry has the potential to impact the environment and society. Therefore, we have set aggressive ESG targets that are aligned with our overall business strategy and stakeholder expectations.

One of our most significant ESG-related challenges is reducing our carbon footprint.

We are working to reduce our energy consumption through sustainable practices and investments in green energy. Additionally, we are advancing sustainable production methodologies and promoting resource efficiency.

Our ESG targets include a commitment to achieving net-zero carbon emissions by 2050. We are proud to report that we have already made significant progress towards this goal. Over the past year, we have reduced our carbon emissions significantly by measures such as increased use of renewable energy, energy-efficient improvements, and the optimization of our production processes.

We also recognize our social responsibilities and are committed to creating a workplace that values diversity, equity, and inclusion. Our workforce is our greatest asset, and we aim to provide a safe and healthy work environment while also nurturing the professional development of our employees.

During the past year, we have introduced several initiatives aimed at promoting resource efficiency, reducing waste and emissions, and ensuring compliance with ESG regulations and standards. Our achievements in these areas are a testament to our commitment towards promoting sustainable business practices and a better future.

We will continue to monitor and update our ESG strategy in our ongoing efforts to promote sustainable growth, boost stakeholder trust, and create long-term value for all.

Sincerely,
Suresh Bhageria

Principle 2: Businesses should provide goods and services in a manner that is sustainable and safe

Essential Indicators

1. Percentage of R&D and capital expenditure (CAPEX) investments in specific technologies to improve product and processes' environmental and social impacts to total R&D and capex investments made by the entity, respectively.

Particulars	FY 2023	FY 2022	Details of improvements in environmental and social impacts
R&D	-	-	-
Capex	-	10.6%	Spray dryer for wastewater treatment to achieve zero liquid discharge (ZLD).

2. (a) Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes, The Company prioritizes strong supplier relationships and upholds high standards of business integrity, health, safety, human rights, and environmental protection. Through proactive engagement and analysis, the Company assesses the

overall social, economic, and environmental impact of its procurement operations. This helps mitigate risks within its complex supply chain. With regular engagement and a standardized questionnaire, the Company tracks and addresses environmental and social impacts of key suppliers, aiming to minimize negative effects on business, environment, and society.

(b) If yes, what percentage of input was sourced sustainably?

~ 40% of our sourcing is done through renowned suppliers. All these suppliers have their internal system of sustainability, which is followed.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

Waste type	Waste management procedure in place
Plastic (including packaging)	Damaged material is brought back to the plant and reprocessed as per SOP through a contracting process. For exported material, customers are required to safely dispose of the product as per local regulations.
E-waste	All E-waste generated in-house is handed over to certified vendors for safe disposal.
Hazardous Waste	Hazardous waste is categorized as per the Rules and is sent to the authorized end users for utilizing the same and converting it into useful products. The remaining hazardous waste is sent for proper disposal at the Pollution Control Board's authorized facilities.
Other Waste	NA

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes/No). If yes, whether the waste collection plan is in line with the EPR plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

The Company is actively pursuing registration in the Extended Producer Responsibility (EPR) portal of CPCB (Central Pollution Control Board). However, it is important to note that the Company manufactures intermediate products, which serve as input materials for its customers' final product manufacturing processes. Consequently, the packaging materials associated with these intermediate products are considered pre-consumer plastic waste, which is subsequently recycled by the customers through certified recyclers.

Permanent Employees & Other than Permanent Employees	

Note A-6:- Yes, the Company is committed to providing a safe and conducive work environment to all of its employees and workers, and has a mechanism to receive and redress grievances for its employees and stakeholders.

Mechanism:

- a) Employees are encouraged to share their concerns via email, letter, oral, suggestion boxes etc. to the Plant In-charge/HR. An answer is expected within 48 hours from the date of reporting the concerns.
- b) In case the employee is not satisfied with the answer of Plant In-charge/HR, or answer is not received within the stipulated time, the employee can present his case to the Site Head. An answer is expected within 3 days from the Site Head.
- c) In case the employee is not satisfied with the answer of Site Head, the aggrieved employee can request to forward his case to the Policy Administrator/Vigilance Officer as the case may be, with a copy to Chairperson of the Audit Committee, which shall make its recommendations within 7 days.
- d) The Policy Administrator/Vigilance Officer will assess the complaint and on being satisfied as to the seriousness and credibility, direct the complaint for further investigation.
- e) After completion of investigation, the final decision is communicated to the employee, within reasonable time period and in any case within 90 days from date of receipt of the Complaint.

Additionally, the Company has implemented following policies to ensure amicable work environment which can be accessed from the Link <https://www.bhageriagroup.com/company-policies-2/>

- Whistleblower Policy
- Anti - Sexual Harassment Policy
- Human Rights Policy

Over and above, the Company has safety committee to manage and ensure conducive work environment.

Note:

1. If any complaint is outside the purview of the Company's Code of Conduct & Ethics is informed back to the complainant.
2. If any complaint received against Senior Management and/or Vigilance Officer will be investigated as per the direction given by Audit Committee.
3. If any Complaint does not merit any investigation, shall be closed by the Policy Administrator/Vigilance Officer.

10. Health and safety management system:

- a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/No). If yes, what is the coverage of such a system?

Yes, the Safety & Health Management system covers activities across all manufacturing locations, offices, research laboratories and supply chain partners. The Safety Management system covers all employees, contractors, visitors and relevant stakeholders.

- b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Company has a process for Risk Management which is essential for preventing incidents, injuries, occupational disease, emergency control & prevention and business continuity. Considering the hazards associated with operations and hazardous chemicals used, sites have deployed structured Hazard Assessment, Risk Assessment and Management Process - both qualitative and quantitative which is regularly reviewed and mitigation plans are put in place for high-risk areas. The process also considers roles and responsibilities, monitoring control measures, competency training and awareness of individuals associated with such activities. Formal risk assessment training has been provided as appropriate. For all activities including routine or non-routine (permit / project activities) hazards are identified by a trained cross-functional team and risk assessment and management is done through Hazard Identification and Risk Assessment (HIRA) / Standard Operating Procedure (SOP) which is referred before starting any activity. The Company also has procedures for process safety and functional safety. Identified hazards and associated risks are addressed through operational control measures using hierarchy of control approach. On a day-to-day basis unsafe conditions and hazards for employees & workers including contractual workers are also identified by Departmental Heads. The storage and handling of hazardous chemicals such as ammonia, flammable materials like methanol, and sulfur are recognized as the primary process hazards at the site. To address these risks, the Company has conducted Quantitative Risk Assessment, HAZOP study, and

engineering reviews by external/internal experts, as necessary.

c. Whether you have processes for workers to report work-related hazards and to remove themselves from such risks.

Yes, we encourage our employees to report near-miss incidents which is analyzed by Plant In-charge, Safety Supervisors etc. All sites have specific procedure for reporting of work-related hazard, injuries, unsafe condition and unsafe act.

d. Do the employees/workers of the entity have access to non-occupational medical and healthcare services? (Yes/No)

Yes, Employees are covered in line with the Policy of the Company. In addition, the Company has periodic medical examinations drive.

11. Details of safety-related incidents.

Safety Incident/Number	Category	FY 2022-23	FY 2021-22

	Worker	2	0
High-consequence work-related injury or ill-health (Excluding fatalities)	Employee	0	0
	Worker	0	0

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

Following measures are taken by Company to ensure a safe & healthy workplace:

- Hazard identification, Risk Assessment, and Management follow the Hazard Identification and Risk Assessment (HIRA) Procedure.
- The Hierarchy of controls is adhered to for implementing risk control measures. Control Plans corresponding to the level of risk are implemented before commencing any job. No job is carried out until risks are brought to an acceptable range, which is ensured through the work permit system.
- Safety Committees are established to assess the adequacy of safety resources and to offer support for the deployment of the safety management system.
- A safe and healthy system of work is maintained through regular safety audits, inspections, mock drills, safety surveys, and safety training conducted across all sites.
- A suggestion box is deployed at the site to encourage further improvements towards a safe and healthy work environment.

13. Number of complaints on the following made by employees and workers:

Particulars	FY 2022-23			FY 2021-22

14. Assessments for the year:

Particulars	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Health and safety practices	100%
Working conditions	100%

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks/ concerns arising from assessments of health & safety practices and working conditions.

- Safety-related accidents undergo thorough investigation, and the insights from the investigation reports are shared with all departmental heads to implement corrective actions and prevent the recurrence of such incidents.
- The effectiveness of the deployed corrective actions is assessed during safety audits.
- Significant risks and concerns identified during Health and Safety Practices assessments are addressed through the hierarchy of management.

Principle 4: Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

We recognize the significance of stakeholders in shaping our strategy’s success. Our engagement process involves identifying key internal and external stakeholders and analyzing their impact on our business, as well as our influence on them. This collaborative approach fosters strong relationships and aligns our strategies with their concerns for mutual benefit.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Stakeholder group	Whether identified as vulnerable & marginalized group (Yes/No)	Channels of communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community meetings, Notice board, Website), Other	Frequency of engagement (Annually/half-yearly quarterly/others – please specify)	Purpose and scope of engagement including key topics and concerns raised during such engagement

Note A-7:- The Company ensures that all its employees and workers receive wages higher than the prescribed minimum wage. The minimum wage rates vary across states, sectors, skills, regions, and occupations due to diverse factors. As a result, there is no uniform minimum wage rate nationwide, and each state follows its revision cycle.

To comply with the Minimum Wages Act and Rules, the Company adheres to the minimum wage notification issued by the respective Central and State bodies for different establishments. This commitment ensures that employees are remunerated according to the applicable minimum wage standards in their respective regions.

3. Details of remuneration/salary/wages, in the following format:

Particulars	Male		Female	
	Number	Median remuneration / salary / wages of respective category (₹ in lakhs)	Number	Median remuneration / salary / wages of respective category (₹ in lakhs)

4. Do you have a focal point (individual/committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, the Company has adopted a Human Rights Policy, which can be accessed from the Link <https://www.bhageriagroup.com/company-policies-2/>

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

The mechanism to redress grievances under Human Rights is same as for other grievances.

- a. On receipt of any concerns via email, letter, oral, suggestion boxes etc. to the Plant In-charge/HR. An answer is expected within 48 hours from the date of reporting the concerns.

- b. In case the employee is not satisfied with the answer of Plant In-charge/HR, or answer is not received within the stipulated time, the employee can present his case to the Site Head. An answer is expected within 3 days from the Site Head.
- c. In case the employee is not satisfied with the answer of Site Head, the aggrieved employee can request to forward his case to the Policy Administrator/Vigilance Officer as the case may be, with a copy to Chairperson of the Audit Committee, which shall make its recommendations in 7 days.
- d. The Policy Administrator/Vigilance Officer will assess the complaint and on being satisfied as to the seriousness and credibility, direct the complaint for further investigation.
- e. After completion of investigation, the final decision is communicated to the employee, within reasonable time period and in any case within 90 days from date of receipt of the Complaint.

Records of the actions taken are documented and subjected to review by Chairman and Audit Committee.

6. Number of complaints on the following made by employees and workers:

Particulars	FY 2022-23			FY 2021-22		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks

Forced labor/Involuntary labor	0	0	Nil	0	0	Nil
Wages	0	0	Nil	0	0	Nil
Other human rights-related issues	0	0	Nil	0	0	Nil

7. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

Whistle blower policy provides for the following protection:

- Whistle blower complaint is a protected disclosure and the Complainant can choose to remain anonymous.
- The Policy Administrator/Vigilance Officer has to protect the identity of the whistle blower.
- The whistle blower is protected against any adverse action not limited to harassment, unfair termination of employment, demotion, suspension and biased behavior on account of whistle blower.

Anti - Sexual Harassment Policy provides following protection:

- The Internal Complaint Committee has a women member to provide additional comfort to the victim.
- The parties (victim and the alleged harasser) are advised to refrain from communication with each other in all possible ways, during the period of investigation.
- The Company is determined to prevent retaliation, victimization, additional harassment, intimidation, humiliation, character assassination or reprisal in any manner of the complainant or any witnesses. In certain cases, the identity of the complainant is kept confidential.

HR Policy for Prevention of Workplace Harassment provides the following protection:

- Any retaliation or threat of retaliation against any complainant is considered as a violation of the Code of Conduct of the company and will necessitate appropriate disciplinary action.

8. Do human rights requirements form part of your business agreements and contracts? (Yes/No).

No

9. Assessments of the year

Particulars	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Child labour	No child labour in employment
Forced/involuntary labor	No forced/involuntary labour in employment
Sexual harassment	100% by Internal Complaints Committee
Discrimination at workplace	100%
Wages	100% by internal audit
Others – Please specify	-

10. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 9 above.

There were no audit concerns in the above areas from assessments in FY 2022-23.

Principle 6: Businesses should respect and make efforts to protect and restore the environment**Essential Indicators**

1. Details of total energy consumption (in GJ) and energy intensity

Parameter	FY 2022-23	FY 2021-22

Water intensity per rupee of turnover (Water consumed / turnover)	0.00005	0.00009
Water intensity (optional) – the relevant metric may be selected by the entity		

Note: Indicate if any independent assessment /evaluation /assurance has been carried out by any external agency? (Y/N), If Yes, name of the external agency.

No independent assessment /evaluation /assurance has been carried out by any external agency

4. **Has the entity implemented a mechanism for zero liquid discharge? If yes, provide details of its coverage and implementation.**

As a chemical company, the Bhageria Group is committed to responsible business practices, and to achieve this, we have implemented a comprehensive Zero Liquid Discharge (ZLD) mechanism. This mechanism incorporates the installation of advanced wastewater treatment technologies and a multi-stage treatment process, ensuring complete recovery and reuse of treated water.

The ZLD mechanism operates on the principle of "Reduce, Recover & Reuse." Firstly, we have minimized our water consumption to the essential level required for our production processes. Subsequently, our treatment facility employs a combination of physical, biological, and chemical treatments to recover various components from wastewater, such as salts and metals, which are then recycled as raw materials in our production processes. Lastly, our treated water is reintroduced into our manufacturing processes, resulting in minimal liquid waste discharge.

We take pride in the fact that our ZLD mechanism covers all our manufacturing plants and facilities. Moreover, to ensure compliance with all applicable regulations and standards, we conduct regular audits and evaluations of our ZLD system. Through these efforts, we demonstrate our dedication to environmentally sustainable practices and responsible management of water resources.

5. **Please provide details of air emissions (other than GHG emissions) by the entity:**

Parameter	Unit	FY 2022-23	FY 2021-22
NO ₂	(MT/Year)	0.824868153	0.20211305

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No independent assessment/ evaluation/assurance has been carried out by an external agency

7. Does the entity have any project related to reducing greenhouse gas emissions? If yes, then provide details.

The company has made significant strides towards lowering our carbon footprint through various initiatives. Some of the examples are:

- The Company has installed a Sulphuric Acid Plant with CO-GEN Technology, featuring a 1 MW steam-operated Turbine with back pressure steam. This turbine efficiently generates electricity for the existing Dye Intermediates Plant, resulting in the discontinuation of the coal-fired boiler, reducing emissions and promoting eco-friendliness.
- The company has taken another environmentally conscious step by setting up a 4 MWp Ground Mounted Solar Plant in Kombhalne. This solar plant caters to the captive consumption needs of the existing Dye Intermediates Plant, significantly reducing electricity consumption and contributing to the conservation of energy resources.

With a strong commitment to sustainability and cost-saving measures, the company remains dedicated to exploring and implementing various avenues for efficient energy utilization, ensuring a greener and more responsible future.

8. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2022-23	FY 2021-22
Plastic waste (A)	0	0
E-waste (B)	0	0

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No independent assessment/ evaluation/assurance has been carried out by an external agency

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce the usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Bhageria takes pride in its well-equipped quality control laboratory and dedicated R&D team, utilizing advanced technology analytical devices for rigorous quality assurance at every stage of the manufacturing process. Our commitment to environmental responsibility is reflected in our comprehensive waste management system, where different types of waste are segregated,

treated on-site, and recovered, re-used, or recycled according to our sustainability policy. We have also implemented a meticulous procedure to minimize waste generation at its source, resulting in reduced treatment costs and a more sustainable approach.

An impressive sustainability initiative includes the installation of a sulphuric acid plant with a waste heat recovery boiler and back pressure steam turbine. This setup not only enables the acid plant to generate its electricity, promoting self-sufficiency and energy efficiency, but also allows us to share surplus energy with another manufacturing unit, eliminating the need for coal-fired steam boilers and reducing overall carbon emissions. Through technological advancements, responsible waste management, and energy-efficient solutions, Bhageria continues to lead the way in sustainable practices. We remain committed to making a positive impact on the environment while maintaining the highest standards of quality in our operations.

10. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones, etc.) where environmental approvals/clearances are required, please specify details in the following format.

Sr. No.	Location of operations/ offices	Types of operations	Whether the conditions of environmental approval/ clearance are being complied with? (Y/N) If no, the reasons thereof any corrective action taken, if any
NA			

11. Details of Environmental Impact Assessments of projects undertaken by the entity based on applicable laws, in the current financial year.

Name and brief details of project	EIA notification No.	Date	Whether conducted by independent external agency (Yes/No)	Result communicated in public domain (Yes/no)	Relevant web link
NA					

12. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India, such as the Water (Prevention and control of pollution) Act, Air (prevention and control of pollution) Act, Environment Protection Act, and rules there under (Y/N). If not, provide details of all such non-compliances.

Sr. No.	Specify the law/regulation/ guidelines which was not complied with	Provide details of the non-compliance	Any fines/ penalties/ actions taken by regulatory agencies such as pollution control boards or by courts	Corrective actions taken, if any
NA				

Principle 7: Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

Essential Indicators

1. a. Number of affiliations with trade and industry chambers/associations. 6 (Six)
- b. List the top 10 trade and industry chambers/associations (determined based on the total members of such a body) the entity is a member of/affiliated to.
